But we would advise the ladies not Odd Fellows' Hall, to witness this celebrated to come out much for several days yet, unless their boots are thicker than they usualwhen Mr. La Ruz will lecture, as he arrived ly wear, for the streets are in a wretched in the city last night. condition, the crossings especially presenting obstacles that cannot easily be gotten over

During the holding out of the present ample stock of mud, a fine opportunity is presented for finding out where a load or two of gravel could be applied to the streets with greatest advantage. Science has dearly demonstrated within the last few years that wherever a mud-hole appears in the street during wet weather, there you may pour your broken limestone and gravel without violating the Constitution, or exciting the indigna tion of the community. This fact is known only to scientific men as yet, but will probably begin to attract attention soon among all classes. It ought to be made a branch of study in our public schools.

While upon this subject, we will take occasion to remark, that if the Street Committee pumps, and walk, after a hard shower, up Union street from Cherry to Summer, they J F Pearl, H Pister, James Johnson & Co., will find something to interest them greatly. R B Showden & Co., J R Bruce, Red Rover This delicate allusion has direct r ference to the side-walk in that street, along which a great many dry-land people have to pass every day of their lives -- at least when they find it not impossible to do so, which occurs only in dry weather. A 'ew cart-loads of Son's, by sand and brick might be expended there with about as much advantage as in any other part of the city; which is saying a great deal.

Me had gre t pleasure in a visit from our Louisville friend, Mr. HARRY HUDSON, one of the bright stars of the Masonic Order, and feel proud in offering him the entres to our sanctum during his sejourn in the "City payment of old Debts, by of Rocks."

FIRE PROOF SAFES .- To those in want of the above article we would say now is the time to avail themselves, as by reference to our advertising columns it will be seen that H. A Good THING .-- Our readers will learn from the advertisement of Messrs. Cone BROTHERS in another column, that they have reduced the price of the Howe Machine to \$50. Sewing muchines are now a household necessity, and this reduction in price, in aacordance with the times, will be duly appreciated by the public. The Howe Machines are deservedly popular. Messrs.
